

# Nationally Accredited.

## Unmatched Excellence.

When selecting a background screening and information services firm, it's important to know that not all firms are not created equal. Accreditation provides a seal of quality and a series of high standards. In short, it's how you know you're getting the real deal.

Alliance 2020 is accredited by the National Association of Professional Background Screeners (NAPBS) through its Background Screening Agency Accreditation Program (BSAAP).

## What is BSAAP accreditation?

BSAAP accreditation provides national acknowledgment and a seal of approval to organizations that specialize in background screening and affiliated services.

The following areas must be continuously upheld by accredited firms:

- Consumer Protection
- Legal Compliance
- Client Education
- Researcher and Data Product Standards
- Verification Service Standards
- General Business Practices

To stay compliant, firms must undergo in-depth audits, document each of their policies and processes, and prove discernible compliance with their policies and procedures.

## Why should I use a firm that is accredited?

Accreditation is a stamp of excellence, expertise, and exceptional standards. Firms that undergo and attain accreditation have met the most stringent criteria, including:

- Establishment of intuitive and customer-centric procedures, products, and services
- Provision of detailed, consistent internal processes and documentation
- Clear and forthright communications with clients

## Why Alliance 2020?

At Alliance 2020, we hold ourselves to our own incredibly high standards in addition to the rigorous benchmarks of the NAPBS. From employment screening and drug testing, to mortgage solutions and tenant screenings, we provide the industry's most premier line of products and services.

After all, our clients deserve nothing less.
