Verification Analysis

Document Integrity		
Overall	Overall verification status of the ID.	Pass
Front/Back Data Match	Ensures that the information on the front of the ID matches the data extracted from the barcode on the back.	Pass
Formatting	Verifies that the layout and provided information comply with official formatting rules for the provided type of ID.	Pass
Barcode Anomaly	Identifies any inconsistencies or anomalies in the barcode that might indicate tampering.	Pass
Security Features Tampering	Assesses whether holograms, watermarks, or microtext have been altered.	Pass
Expired Document	Confirms that the document's expiration date is valid and not expired.	Pass
Valid Document Version	Ensures the ID matches current, official templates and versions.	Pass
Personal Verification		
Biometric Match	Confirms that facial features in the provided image match those in the ID.	Pass
ID Code/MRZ Check	Verifies that data extracted from the machine-readable zone (MRZ) aligns with other provided information.	Not Performed *
Personal ID Number	Validates the Personal ID number against official database records.	Not Performed *
Document Number		Not Performed *
Photo Forgery	Detects any signs of digital manipulation or replacement in the provided image.	Pass

Data Analysis

Date Logic

Verifies that all dates are logical and valid.

Pass

Suspicious Data

Checks for any elements or pieces of data that are inconsistent or may indicate tampering.

Pass

Integrity

Assesses the document's integrity to ensure it has not been physically altered.

Pass

Technology Analysis

Screen Capture

Detects visual indications that images have been captured from screens, suggesting possible fraudulent activity.

Not Performed *

ID Photocopy

Determines if the ID provided is a photocopy rather than the original document.

Pass

Image Quality

Assesses whether the images provided are clear enough to accurately identify all details.

Not Performed *

What does **Not Performed** mean?

A verification check may return with a "Not Performed" status for the following reasons and do not necessarily indicate fraudulent or nefarious activity:

- The check does not apply to the type of documentation provided
- The documentation provided was not clear or at a high-enough resolution to make a determination
- There was a technical issue that prevented the check from being performed
